Maximize the cloud opportunity

Worldwide, business is moving to the cloud. We're focused on supporting you through this shift to a thriving cloud-based economy by ensuring you have the technical capabilities to meet your customers’ needs.

With that in mind, we're updating several Business Applications competencies, adding a new partner association model, and implementing a tool to give you more visibility into metrics. Our goal is to create differentiated value by recognizing you for driving successful business outcomes.

Review the information in this document to understand how the updates may impact your business and prepare accordingly.

Summary of updates

1. The Cloud Customer Relationship Management (CRM) Competency is retiring October 1, 2020. The last day to attain or renew this competency is September 30, 2019.

2. The Enterprise Resource Planning (ERP) Competency requirements will be updated in October 2019.

3. New role-based exams will be introduced to the Cloud Business Applications Competency in July 2019. Additional role-based exams will be added in 2020.

4. The Cloud Business Applications Competency requirements will be updated in July 2019.

5. The Partner Contribution Indicators (PCI) dashboard will be refined and enhanced with new metrics by July 2019.

Cloud Customer Relationship Management (CRM) Competency retirement—October 2020

The Cloud CRM Competency will be retiring October 1, 2020 and will no longer be available for attainment or renewal beginning October 1, 2019. If you renew or attain your competency by September 30, 2019, you will continue to have access to your competency benefits until your anniversary date. To renew or attain a competency you must meet the published requirements and pay the fee. We encourage you to work toward attaining the Cloud Business Applications Competency before the anniversary date of your Cloud CRM Competency.
Enterprise Resource Planning (ERP) Competency updates effective October 2019

The ERP Competency is being updated to recognize revenue performance for Microsoft Dynamics 365 NAV, GP, SL, or Dynamics 365 Business Central.

If you renew or attain your ERP Competency before October 2019, you won’t be impacted by this update until your anniversary date. At that time, you’ll only be eligible to renew if you’re selling Microsoft Dynamics 365 NAV, GP, SL, or Dynamics 365 Business Central.

If your Dynamics 365 business practice does not include any of these products, consider attaining the Cloud Business Applications Competency to differentiate your organization within the growing Dynamics 365 partner ecosystem.

Updates coming to the Cloud Business Applications Competency

If you specialize in implementation, deployment, and management of Dynamics 365, the Cloud Business Applications Competency recognizes you with specific role-based learning and exams differentiated by applications.

New role-based exams for functional consultants will be available in July 2019, with new exams being released for developers and solution architects in 2020.

Many of the current exams will retire with the release of the new exams on June 30, 2019. You will continue to be able to attain the competency with the retiring exams through June 2020.

In addition to this information, your Microsoft Partner Network admin will receive an email with details and instructions. Learn more about the certifications strategy for Dynamics 365 Customer Engagement and for Dynamics 365 Finance and Operations.

New Cloud Business Applications Competency exam requirements effective July 2019:

- Those individuals who have passed the current Talent exam will be counted toward the Customer Engagement option for competency attainment. This update reflects the shift to the Common Data Service platform in the recruiting and onboarding functions of the Talent app. Talent will also continue to count toward the Operations option.

- Please note that while some exams will retire June 30, 2019, others will retire August 31, 2019. The exams will continue to qualify for the competency through June 30, 2020 and August 31, 2020, respectively.

- The new functional consultant exams and current technical exams will be required for Cloud Business Applications Competency attainment for your next competency renewal date after July 2019.
Review the table below for details about which exams are being retired and the new role-based exams being introduced in each functional area. Please note that while some exams retire June 30, 2019, others retire August 31, 2019. Those exams will continue to qualify for the competency through June 30, 2020 and August 31, 2020 respectively.

Cloud Business Applications Competency exam requirements—July 2019

As your organization works toward attaining the Cloud Business Applications Competency, you can choose from Customer Engagement or Operations options. Individuals must meet both functional and technical requirements within either option.

**For attaining silver competency:**

1. Five unique individuals must demonstrate **functional expertise**. Each individual must take and pass:
   a. **One Core Exam** (MB-200 Customer Engagement Core Exam)
   b. And any one of the following five functional exams
      - MB-210 Sales
      - MB-220 Customer Service
      - MB-230 Field Service
      - MB-240 Customer Service
      - MB6-898 Talent

2. Two of the five individuals who took one of the five functional exams must also pass the following technical exam:
   c. **MB2-716 Microsoft Dynamics 365 Customization and Configuration**

**For attaining gold competency:**

1. 15 unique individuals must demonstrate **functional expertise**. Each individual must take and pass:
   a. **One Core Exam** (MB-200 Customer Engagement Core Exam)
   b. And any one of the following five functional exams
      - MB-210 Sales
      - MB-220 Customer Service
      - MB-230 Field Service
      - MB-240 Customer Service
      - MB6-898 Talent

2. Five of the 15 individuals who took one of the five functional exams must also pass the following technical exam:
   c. **MB2-716 Microsoft Dynamics 365 Customization and Configuration**

- MB-210 Sales
- MB-220 Customer Service
- MB-230 Field Service
- MB-240 Customer Service
- MB6-898 Talent

**Technical exams**

- **MB2-716 Microsoft Dynamics 365 Customization and Configuration**

---

**Silver competency example**

- 5 unique individuals with functional and technical expertise
  a. 5 individuals have passed MB-200
  b. 4 individuals have passed MB-210, 1 individual has passed MB-220
  c. 2 of these same individuals have passed MB2-716

**Gold competency example**

- 15 unique individuals with functional and technical expertise
  a. 15 individuals have passed MB-200
  b. 4 individuals have passed MB-210, 4 individuals have passed MB-220, 3 individuals have passed MB6-898, 4 individuals have passed MB-230
  c. 5 individuals have passed MB2-716
Cloud Business Applications Competency exam requirements—July 2019

Follow this chart to see the functional and technical exams your employees need to take in order to attain or renew a Silver or Gold Cloud Business Applications Competency through the Operations option.

For attaining silver competency:
1. Five unique individuals must demonstrate functional expertise. Each individual must take and pass:
   a. One Core Exam (MB-300 Operations Core Exam)
   b. And any one of the following five functional exams
      - MB-310 Financials
      - MB-320 Manufacturing
      - MB-330 Supply Chain
      - MB6-897 Retail
      - MB6-898 Talent

2. Two of the five individuals who took one of the five functional exams must also pass the following technical exam:
   c. MB6-894 Development, Extensions and Deployment for Microsoft Dynamics 365 for Finance and Operations

For attaining gold competency:
1. 15 unique individuals must demonstrate functional expertise. Each individual must take and pass:
   a. One Core Exam (MB-300 Operations Core Exam)
   b. And any one of the following five functional exams
      - MB-310 Financials
      - MB-320 Manufacturing
      - MB-330 Supply Chain
      - MB6-897 Retail
      - MB6-898 Talent

2. Five of the 15 individuals who took one of the five functional exams must also pass the following technical exam:
   c. MB6-894 Development, Extensions and Deployment for Microsoft Dynamics 365 for Finance and Operations

Silver competency example
5 unique individuals with functional and technical expertise

A total of 12 exams will need to be taken by 5 people

Gold competency example
15 unique individuals with functional and technical expertise

A total of 35 exams will need to be taken by 15 people
Adding new Solution Architect and Developer exams

In 2020, new Solution Architect and Developer exams will be available. The current exams (MB2-716 and MB6-894) will retire upon the release of the new exams, and the new exams will be required for competency attainment in 2021.

New Cloud Business Applications Competency performance requirements effective July 2019

Starting July 2019, performance requirements will only recognize Dynamics 365 cloud revenue. On-premises revenue will no longer qualify partners for Cloud Business Applications Competency.

With the momentum of the Dynamics 365 cloud apps in Finance and Operations, only those partners who are driving cloud transformation for customers will be recognized in the Cloud Business Applications Competency.

New partner association model—Digital Partner of Record (DPOR) no longer used

As previously announced, we’re moving to a claims-based process to recognize the work you do with customers. Digital Partner of Record (DPOR) will no longer be used to associate partners with subscriptions as of March 2019.

Instead, partners with a competency must be associated at the subscription level. You can do this by submitting a claim for Dynamics 365 Online subscriptions. This new partner association method aligns to the Online Services Advisory (OSA) sell incentives program. This will put partners in control as a recognized partner associated to customers and lessen the dependency on customer actions.
For more instructions on how to submit claims and the latest information please view these resources. Or you can follow the direct links below:

- Level 50 slides
- Level 100 slides
- Partner FAQ
- OSA Sell Claims Model User Guide

If you were selected as the DPOR for customer subscriptions before February 15, 2019, you don’t need to reassociate yourself through the new claims model. Any increase in seats reported on existing subscriptions will still be recognized automatically, as will seat increases under the claims model.

**New Partner Contribution Indicators**

The Partner Contribution Indicators (PCI) dashboard provides insight into the outcomes you’re driving with your customers. To fine-tune PCI, we've been working closely with select partners for several months to provide accurate and useful insights. The enhancements to PCI and improved reporting will be released by July 2019. In the interim, continue to validate your partner contribution indicators data on the partner center. Go to [https://aka.ms/pcpci](https://aka.ms/pcpci) to sign in. If you have feedback, email pcpci@microsoft.com.

Frequently asked questions

Cloud Business Applications

Q: Why are the exam requirements so much higher than the previous Dynamics 365 competencies?
A: We regularly evaluate our program requirements, and we’re raising the bar to meet customer expectations and needs. The updated competency requirements will differentiate our best partners who offer Dynamics 365 solutions for customers.

Q: To qualify for the Gold Cloud Business Applications Competency, can the same individual who passed the Customer Service exam also pass the Field Service exam and count as two completed exams of the 15 individuals required?
A: No, you must have 15 different individuals who have passed the functional requirements in order to meet that part of the Cloud Business Applications Competency requirement.

Q: Does my organization need a total of 20 individuals to meet the Gold Cloud Business Applications Competency requirement?
A: No, your organization needs 15 unique individuals. Any five of the 15 individuals who passed the functional certifications should also pass the technical requirement for your organization to meet the Gold Cloud Business Applications requirement.

Q: Can I choose either the functional path OR the technical path to attain the competency?
A: No, your organization must meet both the functional and technical requirements of the competency.

Q: Does my organization need to meet the requirements for both the Customer Engagement and the Operations option?
A: No, you may select either the Customer Engagement option OR the Operations option and then meet all the requirements within either option.

Q: If some of the individuals in my organization already have the retiring exams, will those count toward attaining the Cloud Business Applications Competency?
A: The retiring exams will continue to count toward competency attainment until June 30, 2020.

Q: Why is Talent in both options?
A: The Common Data Service platform is now being leveraged for the recruit and onboarding functionality of the Talent application, and we want to provide the opportunity for those partners who focus in this area to also attain the Cloud Business Applications Competency. This path is more closely aligned to the requirements in the Customer Engagement option of the competency.
Frequently asked questions

Enterprise Resource Planning Competency

Q: Why is Dynamics 365 for Finance and Operations revenue no longer counted in the ERP Competency?
A: The Cloud Business Applications Competency now recognizes Finance and Operations, and we encourage partners with the focus to meet the requirements of the Cloud Business Applications Competency.

Q: Why are there no exam requirements for the ERP Competency?
A: There are no new certifications made available for NAV, GP, or SL to include in the competency. Dynamics 365 for Business Central certification is planned for release in calendar year 2019. It will be included as part of the competency attainment in the future.

Cloud Customer Relationship Management Competency

Q: If my renewal date for Cloud CRM competency is in December 2019 can I renew this competency before October in order to retain it until October 2020?
A: If your account is in partner center you may renew the Cloud CRM Competency only during the month of October. If your renewal date falls after October 2019 we recommend that you begin preparing to attain Cloud Business Applications Competency in order to maintain competency status.
